HISTORIC AMERICAN ENGINEERING RECORD

North Carolina Route 1392 Bridge  
(Bridge No. 63)

HAER No. NC-25

Location: Spanning Tuckaseegee River  
Dillsboro vicinity, Jackson County, North Carolina

Date of Construction: Pre-1920

Builder: The Owego Bridge Company of Wilmington, Ohio

Original Use: Vehicular bridge

Present Use: Vehicular bridge

Present Owner: North Carolina Department of Transportation  
Raleigh, North Carolina 27611

Significance: It is one of the most highly visible truss bridges in the mountains, for it spans the Tuckaseegee River beside U.S. Route 19A. It is 160' long and divided into nine panels. The truss was designed for two lanes of traffic. The span contains fully-machined members. The clevises of the tie rods are threaded onto its members.
